

Noel knows a half flush saves twice the water

Become a Local Water Legend too

Prolonged dry weather has seen South East Queensland dam levels drop. As we head into the warmer months, we can all make small changes to save water and stay H2OK!

Small changes can make a big difference to your water usage and save you money at the same time. We're asking everyone to be water wise and help reach our regional target of 150 litres of water per person, per day. So spread the word to your family, friends and colleagues and together, we can all be Local Water Legends.

Tips for outdoors

Water at cooler times

Better yet, plant a drought-resistant garden.

save **900** litres an hour

Use a pool cover

Reduce evaporation and save water.

save **50,000** litres a year

Wash the car with a bucket, not a hose

Wash on the grass to give it some water too.

save **130** litres per wash

Avoid hosing down

Use a broom and a bucket instead.

save **600** litres a year

Tips for indoors

Brush with the tap off

A great habit to get into.

save **5** litres a minute

Use a **half flush** toilet

A big water saver for your household.

save **6** litres per flush

Cut your **shower** time to 4 minutes

Pick a song and shower to it.

save **9** litres a minute

Only wash **full loads**

Max capacity, max savings.

save **1000s** of litres a year

Fix leaking taps

Water-efficient fittings work wonders.

save **12,000** litres a year

Install an efficient shower head

A powerful way to save water.

save **9** litres per minute

These easy tips are a great way to get started and a general guide to the savings you can make (depending on your appliances and household).
