Concept 1 : SINGSONG - Voices of Eumundi

A mural celebrating the buzz and energy that Eumundi exudes and welcomes – from its street buskers and live music to the lively festivities at the markets and the local wildlife

This design features local birdlife, each with their own distinct song or call, capturing the joyous atmosphere of expression that makes Eumundi special.

The birds are depicted in full song, with vibrational patterns representing sound and movement throughout the composition.

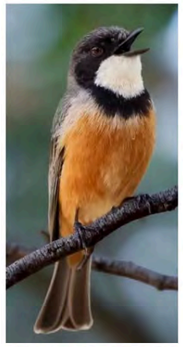

A light, uplifting palette of yellows, mint greens and pastel purples will help brighten the darker site. The species have been chosen for their song-related names or distinctive calls (or both!), featuring a mix of familiar and rarely sighted birds to spark recognition and curiosity, particularly among children and visitors.

The wall will include a QR code mounted to the wall on each bird with a link to their song and an educational overview of the species.

Suggested elements

Noisy friarbird
Eastern whipbird
Masked lapwing
Kookaburra Spotted
pardalote Rufous
whistler Magpie
Noisy Pitta
Regent Bowerbird
Varied Triller
Wompoo Fruit Dove

Concept 2: EDIBLE GARDEN - A Taste of Eumundi

A mural celebrating the vibrancy and abundance of the district's edible plants, with the Eumundi Quandong as the hero element.

The design showcases locally grown species, highlighting their unique flowers, colours, unusual-shaped pods, foliage and seeds. Two local fruit dove species, the Wompoo and Rose-crowned Fruit Dove, feature as key elements, feasting on the fruit.

Flowers, berries, seeds and foliage are brought together in a lively, layered composition that invites viewers to explore the artwork as it flows around the building.

A vibrant palette of yellows, pinks, blues, dark oranges and greens will bring colour and brightness to the building, creating a striking contrast against the darker site

Suggested elements

Wompoo fruit dove
Rose-crowned fruit dove
Eumundi Quandong - Elaeocarpus eumundi
Lilly Pilly Resilience - Syzygium australe 'Resilience'
Midgen Berry - Austromyrtus dulcis
Fraser Island Apple - Acronychia imperforata Blueberry
Ash Tree - Elaeocarpus reticulatus Native Gardenia -
Atractocarpus fitzalanii Coastal Boobialla - Myoporum
boninense Lemon myrtle - *Backhousia citriodora*
