

Super Sewage Send-off

INSTRUCTIONS: Help send the toilet paper through the maze of underground pipes to the right place – the sewage treatment plant!

Did you know?

The material coming into the sewage treatment plant is called 'influent', and the cleaned water coming out of the plant is called 'effluent'.

START

Oh no! This pipe is blocked by wet wipes!

Uh oh! Nappies have blocked this pipe.

Yikes! Food has blocked this pipe!

FINISH

SEWAGE TREATMENT PLANT

You did it!

You got the toilet paper safely through the pipes all the way to the sewage treatment plant. Remember, only ever flush pee, poo, and toilet paper down the loo!
