Aura and Harmony Program

WORKS NOTIFICATION

Aura Water Project
Old Caloundra Road Closure
July 2024 until late November 2024

Unitywater provides essential water and wastewater services for the growing Sunshine Coast region. With a projected population of 50,000 residents in Aura by 2050 and 21,000 residents in Harmony by 2036, new water and wastewater infrastructure is essential to meet the future demands of the communities, ensuring their long-term sustainability and development.

Bulk earthworks at the Aura Reservoir and vegetation clearance along the Aura Water Project pipeline have now commenced. Trenching and excavation of the physical pipeline will soon commence.

What we're doing:
We are both trenching with excavators and drilling underground to install the new water pipeline. This work will require a section of Old Caloundra Road to close temporarily while we complete this work.

It is important that we close this section of road to ensure public safety. The alternative route during the closure period will be Forestry Road.

The drilling process involves an initial underground drill to create a void, before pulling the pipe through the drill hole, which will then ultimately be connected to the Aura water pipeline.

When will this work happen?
We aim to move through the area as quickly and as safely as we can, to minimise impacts to the local community. All works conducted will be weather and resource dependent. In the event of bad weather, such as rain and high winds or problematic site conditions, we may need to stop works and reconvene at a safer time.

You may experience an increase of noise while we complete these works. Please reach out to the project team if you experience any concerns.

Please visit our website **communityhub.unitywater.com/aura-water-project** to find out more information about the project.

Unitywater here for liveable communities – **here for life**

Delivery Partner
McConnell Dowell Pty Ltd

Date:
July 2024 until late November 2024

What to expect:

- Closure of a section of Old Caloundra Road as shown overleaf
- The alternative route during the closure period will be Forestry Road
- Earthworks, construction and trenching activity at the future Aura Reservoir site and pipeline
- Ongoing vegetation removal activities
- An increase in construction traffic, including heavy equipment
- Intermittent construction noise during working hours of Monday – Sunday, 6am to 6pm.
