Pine Valley Water Supply Project Update

Road closure and detour during upcoming night work

We would like to advise that construction works have recommenced for the year as part of the ongoing Pine Valley water supply project in your area.

We informed you in December 2025 that night work will continue from **Sunday 11 January 2026** for approximately three weeks to complete the pipe installation across Oakey Flat Road, progressing from Williamson Road. **Night work hours will be between 6:30pm and 6:30am, Sunday to Thursday,** weather and site conditions permitting.

Once the road crossing is finished, we will complete the remaining pipe installation along Oakey Flat Road to Elm Court during daytime hours. Work will then move to Forest Hills Drive to complete the final section of pipe installation.

As part of these works, a temporary road closure will be required during the night works. The closure will occur on approximately five (5) nights within the three-week period.

What to expect:

- The road will be temporarily closed intermittently
- A signed detour will be in place during the road closure (**refer to map over page**)
- Please follow all traffic controls, including signage and directions from traffic controllers
- Local access will be maintained for residents within the work zone at all times; however, we kindly ask you to avoid parking vehicles on the street
- You may experience short delays so please plan your trip ahead of time
- Some noise, light and general disruption may be experienced during the night works, we will minimise this as much possible
- Temporary laydown area will be established on the corner of Oakey Flat Road and Williamson Road

Traffic management measures will be in place for the safety of road users, residents and workers, and crews will work to minimise impacts wherever possible.

We appreciate your patience and cooperation while we complete these essential works. We will provide further updates should there be any changes that may affect you.

To report any issues or concerns, please contact Downer's community team on **0437 614 484** or email us at **unitywater.projects@downergroup.com**
