## Pine Valley Water Supply Project Update

### Upcoming work on Jacko Place, Morayfield

Following on from our previous works notice. We will soon commence pipe installation works at Jacko Place, Morayfield, as part of the Pine Valley Water Supply Upgrade.

***Please refer to the overpage for a map showing the work area.***

To safely complete these works, traffic management will be in place with the road operating under local resident access only. Access will be maintained for residents, emergency services and essential vehicles. Please follow all signage and directions from traffic controllers when entering or exiting the work area.

### Work hours

From **mid-March 2026**, we will commence construction activities along Jacko Place, Morayfield.

Our standard working hours are Monday to Friday, 6:30am to 6:30pm, weather and site conditions permitting.

Due to the complexity of the road crossing and staged construction requirements, works are expected to take up to eight weeks to complete, weather and ground conditions permitting.

### What to expect

During the upcoming pipe installation works, you may notice the following:

- Traffic management in place, with the road reduced to local resident access only.
- Increased construction activity, including trucks, machinery and work vehicles on Jacko Place, Morayfield.
- Intermittent noise, dust and minor vibrations from excavation, machinery and compaction equipment, we will minmise this where possible.
- Possible minor delays when travelling through the work area. We will engage directly with residents as we progress with works.

### Our commitment

We'll make every effort to minimise disruption during this time. We will also keep directly impacted community members informed by providing regular updates throughout the project. We appreciate your patience as we carry out these important works.
