# Works *notification*

## Pine Valley Water Supply Project Update

Following our previous notification, we're pleased to advise that works are progressing well. As we continue installing the remaining pipeline and building the new water reservoir, we want to let you know about the next stage of works required before the final road restoration, planned for mid-2026.

Our delivery partner, **Downer,** and their subcontractors will soon commence scour pit and air valve installation works along **Williamson Road, Forest Hills Drive, Oakey Flat Road, Elm Court, and Ward Drive, Morayfield,** from **early May 2026** for up to **six weeks.**

### Work hours

Works will be carried out **Monday to Friday**, between **6:30am to 6:30pm,** weather and site conditions permitting.

Over the coming weeks, our crews will be completing the following activities:

- Installation of new scour and air valve pits, including reinstatement of any disturbed surrounding areas.
- Pipe connection works at Oakey Flat Road and Nairn Road, Morayfield.
- Final restoration works, including permanent road and turf restoration.
- Works will continue on Jacko Place as we build the water reservoir.
- Complete the final road crossing Forest Hills Drive near the Quarry. A separate notice will be provided before this work begins.

***Please refer to the overpage for a map showing the work areas.***

### What to expect

- Intermittent **noise, dust, and minor vibration** from construction equipment.
- **Increased vehicle movements** associated with construction machinery such as excavators, rollers and trucks.
- **Temporary traffic changes**, including short-term partial lane closures to safely complete these activities and manage construction vehicle movements. Traffic controllers will be in place when required to maintain access and ensure the safety of motorists, pedestrians and our work crews.
- **No interruption** to your water or wastewater services is expected during these works.

We will make every effort to minimise impacts to nearby residents and businesses where possible.
