Pine Valley Water Supply Project

Project Update: Upcoming night work

As the Reservoir work progresses well, our delivery partner **Downer,** and their subcontractors are planning to undertake night work for an upcoming concrete pour on the Reservoir located on Jacko Place, Morayfield.

This activity needs to be undertaken overnight to ensure the quality and integrity of the concrete, which requires continuous placement and curing.

Refer to the map overpage for location of the work

Work hours

In addition to our standard working hours of Monday to Friday, 6:30am to 6:30pm, night work is planned between **Tuesday 8 September and Friday 18 September 2026** for up to **one night from 1:00am to 10:00am.**

Please note that further night works may be required later in the project. We will provide additional notification as the project progresses.

What to expect

During the night work, you may notice:

- Continuous movement of concrete trucks to and from the Reservoir site
- Increased noise, dust and minor vibrations may occur during construction activities. Measures will be implemented where possible to minimise impacts on nearby residents
- Reverse beepers, vehicle movements, flashing lights from construction vehicles and traffic control. Every effort will be made to reduce disturbance during the evening.

Our commitment

We'll make every effort to minimise disruption during this time. We will also keep directly impacted community members informed by providing regular updates throughout the project. We appreciate your patience as we carry out these important works.

Date

1 September 2026
