

- Notes:**
1. Unitywater, at its discretion, may audit more frequently any entity or Registered Certifier it considers to potentially be a conflict risk due to (amongst others) multiple roles within the accreditation scheme. (ref. Accreditation and Certification Manual, Business Models - page 14).
 2. The extent of Unitywater audits are not limited to this checklist but cover all the requirements of the SEQ Code. Any additional recognised Non-Conformances will nominally be scored at a 2, though at Unitywater's discretion, may attract a higher score, based on risk.
 3. Issue of a Unitywater decision does not imply an audit with a pass result has been achieved. Unitywater reserves the right to conduct audits at any time during the application process (design/construction phases).
 4. * - Means the applicable score will apply to each instance of the described non-conformance identified during the audit assessment.
