A&C - Works Completed Certification

Accreditation and Certification

Instructions:

This form is in four (4) parts and must be completed by the **Construction Certifier**, where relevant, as follows:

Unitywater Connection Application No: _____ SP Plan: _____

Development Name / Street Name: _____ Total Number of Lots: _____ Stage: _____

Construction Certifier Name: _____ Phone No: _____

This Certification is for - (tick relevant box):

- ☐ Part A – Certification for works completion to enable the issue of the Provisional Certificate of Completion.
- ☐ Part B – Certification to proceed to On Maintenance inspection.
- ☐ Part C – Certification for the inspection of connection of the constructed works to Unitywater's sewerage networks.
- ☐ Part D – Certification to proceed to Off Maintenance inspection.

Part A – Certification for works completion to enable the issue of the Provisional Certificate of Completion [*Provide to the developer or representative*].

The Construction Certifier must inspect the works and confirm that the works;

1. Are at least 50% completed for each component i.e. Water supply is at least 50% completed and or sewerage is at least 50% completed;
2. Can be satisfactorily, under normal weather conditions, completed within three (3) months from the date of this certification.

Part B – Certification to proceed to On Maintenance. [*Provide to the developer or representative*].

The Construction Certifier must inspect the works and confirm that the works are 100% completed to proceed to On Maintenance.

Part C - Certification for the inspection of the connection of the constructed works to Unitywater's sewerage networks [*Email to Unitywater within 5 business days after completion of the connection*]

The Construction Certifier must **inspect** the connection of the constructed works to Unitywater's sewerage networks prior to the connection being backfilled, completion of backfill and reinstatement works.

Part D - Certification to proceed to Off-Maintenance inspection [*Provide to the developer or representative*].

The Construction Certifier will need to review the CCTV report and associated documents and if satisfactory, undertake the certification below:

Certification

The Construction Certifier will need to provide the following certification:

I, _____ **from** _____ **on** _____ **, certify that:**

Name of Registered Certifier *Accredited Entity* *Date*

Part A

- ☐ The works are at least 50% completed for each component;
- ☐ The works can be satisfactorily, under normal weather conditions, completed within three (3) months from the date of this certification.

Part B

- ☐ The works are 100% completed to proceed to On Maintenance.

Part C

I have inspected the following and deem it satisfactorily complying with the SEQ Code and the approved plans:

- ☐ Connection of the constructed works to Unitywater's sewerage networks;
- ☐ The backfilling and compaction of the trench; and
- ☐ The reinstatement of the site to as close as possible to pre-connection condition.

Part D

- ☐ I have reviewed the CCTV report and associated documents and deem it satisfactory to proceed to Off-Maintenance inspection.

Registered Connections Certifier Number: _____
