Water Fill Station Operating Instructions

Phone: (07) 5431 8765 Email: Retail.compliance@unitywater.com Post: PO Box 953, Caboolture Q 4510

- Set up truck to receive water by connecting hose to the 80mm male camlock fitting at the fill station.
- 2. Unlock cabinet using the orange bi-lock key.
- 3. **HOLD** silver **FOB** key against Key Reader until "**Select**" light turns on.
- If key is invalid invalid light will come on.

If this occurs, please contact: *Unitywater* – 1300 086 489 – 8.30 am to 5.00 pm

- Press START to commence water flow.
- 6. Press **OFF** to stop flow when truck tank is full.
- Relock cabinet.
- Turn off valve on truck and open drain valve on fill station outlet to drain hose.
- Remove hose when empty and shut drain valve.
